'City of Columbia uses Coronavirus Stay-At-Home Order to force several pro-lifers to leave public right-of-way outside Planned Parenthood (PP) killing center'

Tuesday morning (4/7), City of Columbia police ticketed leader of one prolife group doing sidewalk counseling with two people by PP main driveway; and later threatened to ticket leader of Columbia Christians for Life, Steve Lefemine, standing across street with signs.

Two Roman Catholics were also near PP main driveway, for total of five prolife people there on both sides of road.

Several CPD officers and vehicles came to the scene, two LT's the highest ranking. This audio has exchanges between LT's and Lefemine. However reluctant to do so, the second CPD LT responds he would ticket Lefemine if he does not leave:

The video below is in effect final order from a CPD Sgt to Lefemine to pack up and leave:

Lefemine repeatedly says he is leaving under threat of being ticketed, intending to seek attorney counsel to consider a federal civil rights lawsuit.

The whole incident spanned almost 2 1/2 hours. Lefemine has been present at this PP over 20 years. As witnesses unto Christ (Acts 1:8, kjv) he and other Christians have done sidewalk counseling, displaying signs, preaching, praying, singing; exercising God-given, unalienable rights protected by law under First Amendment to US Constitution. These rights were violated by City of Columbia on April 7, MIS-USING law enforcement officers, forcing them to break the law and violate citizens' constitutional rights.
