The 30+ year downward trend brought the number to 4,646 "abortions" in 2018, the lowest since 1988; and then to 5,101 in 2019, which is the second lowest since 1988.

1988 to 2014

The number of ADDITIONAL locations in SC reporting "abortions" committed was 3 additional in 2014; 5 additional each year 2015, 2016, 2017, 2018; and 3 additional in 2019.

Approximately 99% of the "abortions" committed in SC occurred in one of the three main "abortion" centers; so approximately 1% occurred elsewhere: The percentage of the total "abortions" committed in SC in each of the following years which was perpetrated in one of the three main "abortion" centers was: 2014 (98.7%), 2015 (99.2%), 2016 (99.3%), 2017 (99.1%), 2018 (99.3%), and 2019 (99.1%). So approximately 1% of the "abortions" in SC were committed somewhere other than the three main "abortion" centers in the state.

*[ CCL Note: There are multiple explanations for decreases in "abortions" committed in SC, including the death by auto accident of a prominent "abortionist" which closed three "abortion" centers; as well as decades of pro-life sidewalk counseling outside the state's "abortion" centers, the ministries of Pregnancy Care Centers, and influences for life from churches, family, friends, and more. These drops are absolutely NOT attributable solely to incremental child-murder regulation legislation advocated by SC Citizens for "Life", which actually **PERPETUATES** "abortion".]*
