Contemporaneous example of Aspen Institute's heavy infestation of Globalism:

The **Aspen Security Forum** (ASF) is the premier national security and foreign policy conference in the United States. Presented by the **Aspen Strategy Group**, ASF has provided a nonpartisan public venue for domestic and global leaders to discuss the key national security and foreign policy issues of the day for the past 14 years.

The Forum features the highest caliber of speakers, including domestic and international government officials, business executives, leading academics, and noted journalists. Open to a carefully selected cohort of journalists and media outlets, the Aspen Security Forum is known for its far-reaching press coverage domestically and around the world.
